

DEAR READERS,

It's good to have you holding us in your hands!

4Linden is a showcase of how an ecological, grandchild-friendly life is possible now and in the future, in harmony with nature and with ourselves, and with what makes us happy.

What is it like today?

More and more people are striving for an alternative, healthier, more planet-friendly and self-responsible way of life.

More and more people want to leave behind the learned pressure of earning a living and return to a more conscious way of life.

What do we want?

We advocate an intact environment, natural building, a healthy diet, living water, natural medicine and harmonious development.

We long to do something truly meaningful, something meaningful, meaningful, for the WE feeling that wins in the end.

We stand up for a solidary togetherness here with us on 4 Linden, in Aachen, in whole Europe and we invite you to a mutual acquaintance and fruitful exchange.

We invite you!

Come and participate in our projects here with us and with us on 4Linden. Welcome to our events, seminars and offers. Join our association Europa Morgen e. V.

Help us with our Europe-wide association work.

We are looking forward to you!

GESA KIESOW

Only recently, I live with my 18-year-old son delighted in the little witch house on this farm. Here on 4Linden I take care of the administration, the association Europa Morgen e.V., the herb garden, the Mariengarten and love the community. I also offer interior design, garden design as well as astrological individual consultations and seminars on this.

GINA MUES

The donkeys are my hobbyhorses, I take care of their welfare and lead and organize the donkey walks. With my little accordion I like to invite you to sing along and make music. Whether here, in the meadows or in our chapel. For all the children I organize the monthly waffle dinners.

ANDREAS DILTHEY

My concern with 4Linden is to give an example that another world is possible.

I want to show how little it takes to become happy and how little it takes to make others, humans, animals and plants, happy. Or in other words: That a peaceful coexistence of all living beings on earth is not only possible, but also indispensable.

PLACE OF
INSPIRATION AND HOPE

4 LINDEN
AACHEN

ARCHITECTURE

All buildings on 4 Linden are built from natural materials and are 95% compostable. Everything is lovingly prepared and combines into a harmonious whole. This fills our souls, our hearts and our senses with joy, contentment and happiness.

ART

It does not take much to implement simplicity, mindfulness and beauty in everyday life. The art of beauty is not a luxury that we afford ourselves from time to time, but is an expression of a creative, fulfilled and happy life.

4 LINDEN

In the northwest of Aachen lies 4 Linden, a picturesque gem surrounded by orchards, paddocks and hiking trails.

A harmonious ensemble of houses, each of which tells its own story, of beautiful sitting areas and artfully designed terraces that invite you to linger. In the midst of greenery, just a few kilometers from the city center, a place of peace and tranquility, of balance and harmony has been created over 4 decades.

LOCATION PLAN WITH LEGEND BELOW

- | | |
|----------------------------------|---|
| 1. FARM WORKERS HOUSE | 12. SEMINAR HOUSE |

| 10. SHED | 21. COMPOST TOILET |
| 11. CHICKEN COOP | 22. HISTORIC GATE OF CHATEAU LAVERNE, BILSTAIN, BELGIUM |

ECOLOGY

Humans, animals and plants are equal partners in the world that we share together. „Anything that goes against nature will not endure in the long run“, Charles Darwin already stated 150 years ago.

The curious will be rewarded and discover the size and diversity of this farm with every further step. The 4 lime trees right at the entrance gate of the farm stand for strength and beauty, and their number for the 4 areas of architecture, art, ecology and community that are at stake here. What do we actually need to live well, to love and be happy? Above all, a life in harmony with nature and our environment, with all people, animals and plants.

COMMUNITY

If we implement all that we do with love and mindfulness, then building becomes the art of building, healing becomes the art of healing, and living together becomes a community of values in solidarity. It even becomes more when we share.
