**Re: Support to the candidacy of the project *RUESTA, A BEAUTIFUL REMAIN* for the New European Bauhaus Prize**

To whom it may concern,

I herewith confirm that the Association Hispania Nostra which I represent is supporting the candidacy of the project *Ruesta, a beautiful remain in "el Camino de Santiago". Interventions on the French Way to St.James* for the New European Bauhaus Prize.

Hispania Nostra has been a partner of the New European Bauhaus since summer 2021 and all this time we have been working on promoting the core values of the initiative (sustainability, inclusiveness, and aesthetics) and on celebrating good practices in cultural heritage where we identify those values. This is one of the reasons the project has been awarded the *Hispania Nostra Award* and we have continued collaboration with the stakeholders of this project, firmly believing that this example of the good practice in cultural heritage intervention should be promoted in Europe and celebrated as it truly reflects the positive impact on the surroundings, on cultural, natural and intangible heritage and, very importantly, on the local community living and sharing that space.

Yours sincerely,

  
Barbara Cordero Bellas
